Excellent

10. Do you have any other comments to add to your evaluation?

Please keep your comments constructive and professional, abiding by the Principles of Community

- Ahmed has a fiery passion for teaching complex topics in front of students. He does not shy away from "working through" problems in front of students and I firmly believe this is one of his greatest strengths as a teacher. Many people can explain concepts, but few can lead students through the chaos during a live problem. I hope he will have more opportunities in the future to foster his excellent teaching abilities. Regardless his communication skills and "playful nature when it comes to complex problems" will serve him well in future technical leadership roles. I strongly recommend Ahmed for all future positions as well.
